Location: Mpumalanga, Nkomanzi, Buffelspurit 120051

PROFILE

Final-year Bachelor of Science in Information Technology student at North-West University with strong interests in software development, programming, and computer networking. Experienced in developing applications using Java and C# and working with databases using SQL. Passionate about solving technical problems and building efficient systems through clean and structured code. Seeking an opportunity as a **Software Developer Intern or Junior Developer** to apply technical skills and gain professional experience in the technology industry.

TECHNICAL SKILLS

Programming Languages
Java, C#, Python (basic), SQL, JavaScript, HTML, CSS

Tools & Technologies
Git, Visual Studio, SQL Server, Cisco Packet Tracer

Concepts
Object-Oriented Programming (OOP), Data Structures, Database Design, Networking Fundamentals

Soft Skills
Problem-solving • Teamwork • Communication • Analytical thinking

---

PROJECT EXPERIENCE

Word Shuffle Game (Java)

Developed a Java application that loads words from a file and shuffles them for a guessing game. Implemented custom data structures including a self-developed ArrayList and created a hint system to reveal letters when incorrect guesses are made.

Technologies: Java, File Handling, Data Structures

Networking Simulation Projects

Designed and configured network topologies using Cisco Packet Tracer. Configured switches, routers, and IP addressing while testing connectivity and troubleshooting network communication issues.

Technologies: Cisco Packet Tracer, Networking, IP Configuration

---

SQL Database Practice

Designed relational databases and executed SQL queries to create, retrieve, update, and delete data. This helped build a deeper understanding of database structures and management.

Technologies: SQL, Database Design

EDUCATION

Bachelor of Science in Information Technology
North-West University

Relevant Coursework:

- Object-Oriented Programming
- Data Structures and Algorithms
- Databases
- Computer Networks
- Systems Analysis and Design

INTERESTS

- Software Development
- Cybersecurity and Networking
- Learning new programming technologies
